

# Challenge #3: Layout and Menu Elements

## Introduction:

This documentation outlines the layout structure and navigation menus for the Barangay Malongon website. The design incorporates a responsive layout for an optimal viewing experience on various devices. The primary focus is on simplicity, clarity, and ease of navigation.

## Responsive Layout:

The website employs a responsive layout to ensure a seamless experience across different devices. The layout adapts to varying screen sizes, providing users with a consistent and user-friendly interface.

## HTML Structure:

```
<!DOCTYPE html>
<html lang="en" xmlns="http://www.w3.org/1999/xhtml">
<head>
  <meta charset="UTF-8"/>
  <meta name="viewport" content="width=device-width, initial-scale=1.0"/>
  <link rel="stylesheet" href="styles.css"/>
  <title>Barangay Malongon</title>
  <!-- Additional meta tags, stylesheets, and scripts can be added here -->
</head>
<body>

  <!-- Header, Navigation, Main Content, and Footer sections as discussed in the previous documentation -->

</body>
</html>
```

## Navigation Menus:

The website incorporates clear and accessible navigation menus to guide users through different sections.

```
<nav class="horizontal-nav">
  <ul>
    <li><a href="index.html">Home</a></li>
    <li><a href="about.html">About</a></li>
    <li>
      <a href="#">Services</a>
      <ul class="nav-dropdown">
        <li><a href="certificates.html">Certificates</a></li>
        <li class="profile"><a href="profiling.html">Profiles</a></li>
      </ul>
    </li>
    <li><a href="news.html">News</a></li>
    <li><a href="faq.html">FAQ</a></li>
  </ul>
</nav>
```

## Conclusion:

The layout and menus implemented in the Barangay Malongon website focus on responsiveness and intuitive navigation. This structure aims to enhance user experience and provide a visually appealing presentation of information. Further customization and styling can be applied based on specific design requirements.
